The International Conference of Physics Students is the meeting of physics students from **all over the world**. Many educational and social activities are offered to provide an enriching experience, both from an academic and a personal point of view. Students will attend academic lectures, parallel and poster sessions besides scientific and recreational excursions and sport activities.

ICPS 2017 will take place in Torino, for the very first time in Italy. Torino is the former capital of Italy and its millenary history has allowed the creation of an original and **unique cultural identity**. City rallies will be organised during the Conference.

Confirmed speakers are:

Steven Cowley FRS - CCFE, UKAEA
Francesco Tombesi - NASA, INAF
Francesco Prino - CERN, INFN

Scientific excursions will include tours at **National Metrology Research Institute**, and **Astrophysics Observatory** in Turin, **Laboratoire Souterrain de Modane** and **National Centre of Oncological Hadron-therapy** in Pavia. Recreational excursions will include **boat travel** on the river Po, **mountain tours** and **wine tasting** in local famous cellars.

€ 190 - 210 for participants that will apply within two months of registrations opening,
€ 250 - 270 for those who register later.
